All Cap Growth

MARKETING COMMUNICATION

Management Team

Aziz V. Hamzaogullari, CFA

Objective

Seeks to produce long-term, excess returns vs. the Russell 3000® Growth Index on a risk-adjusted basis over a full market cycle (at least 5 years) through bottom-up stock selection

Highlights

- Highly selective management with a long-term, private equity approach to investing
- Seven-step research framework focuses on quality, growth and valuation
- High-conviction portfolio of typically 30 to 45 stocks
- Low turnover: 13.0% annualized since inception 7/1/2006[1]
- Top 10 holdings: typically 40% - 70%
- Up to 25% holdings in non-U.S.[2] securities including ADRs and OTC ADRs
- Looks to identify high-quality companies–those with difficult-to-replicate business models
- Team must view cash flow growth as sustainable and profitable
- Stock values are modeled and regularly updated based on our four valuation scenarios: Best, Base, Bear and Worst
- Seeks to create a margin of safety[3] by investing only when company is selling meaningfully below the team's estimate of intrinsic value
- Active risk management defines risk as a permanent loss of capital, not tracking error or short-term relative underperformance
- Bottom-up stock selection drives excess returns

[1]As of June 30 2026.

[2]The Manager uses a proprietary approach to classify securities as U.S. or non-U.S., considering factors such as trading markets, headquarters location, country of organization, revenue sources, and third-party data. No single factor is decisive, and weightings may vary by fund or geographic strategy.

[3]Holding all else equal, the larger the discount between market price of a particular security and our estimate of its intrinsic value, the greater we view our margin of safety. Margin of safety is not an indication of the strategy's safety as all investments carry risk, including risk of loss.

[4]Since composite inception 7/1/2006

[5]The portfolio manager for the All Cap Growth Composite joined Loomis Sayles on May 19, 2010, and performance prior to that date was achieved at his prior firm.

Performance data shown represents past performance and is no guarantee of future results. Current performance may be lower or higher than quoted. *Returns for multi-year periods are annualized. Gross returns are net of trading costs. Net returns are gross returns less effective management fees. Returns may increase or decrease as a result of currency fluctuations.*

Indices are unmanaged and do not incur fees. It is not possible to invest directly in an index.

There is no guarantee that the investment objective will be realized or that the strategy will generate positive or excess return.

KEY RISKS

Equity Risk, Market Risk, Non-US Securities Risk, Liquidity Risk. Investing involves risk including possible loss of principal.

*Due to rounding, **Market Capitalization** and **Sector Distribution** totals may not equal 100%. This portfolio is actively managed and characteristics are subject to change. **Top 10 Holdings** may combine more than one security from the same issuer and related depositary receipts. Portfolio weight calculations include accrued interest. Holdings are based on total gross assets before any fees are paid; any cash held is included. Reference to specific securities or holdings should not be considered recommendations for action by investors. There is no guarantee the account continues to invest in the securities referenced. **Cash** may include unsettled trades, fees and/or derivatives. **Median Active Share (since inception)** indicates the proportion of the portfolio's holdings (by market value) that is different than the benchmark. A higher active share indicates a larger difference between the benchmark and the portfolio.*

Characteristics are shown for a representative account. Due to systems limitations, it may be difficult to analyze characteristics on a composite basis. The representative account was selected because it closely reflects the Loomis Sayles All Cap Growth investment strategy. Due to guideline restrictions and other factors, there may be some dispersion between the returns of this account and other accounts in the Composite.

The All Cap Growth Composite includes all discretionary accounts with market values at least $1 million managed by Loomis Sayles that seek to produce long-term excess returns at or below benchmark risk over a full market cycle relative to the Russell 3000 Growth Index and generally within the market capitalization range of the Index. The Composite inception date is July 1, 2006. The Composite was created in July 2010.
